

# Software Services

## Value of IT services

---

- Clinical documentation based on Personal Care Plans (PCP)
- Supervision notes
- Electronic billing
- Increases compliance
- Reduces administrative time and effort
- Increases quality of care
- Increases audit trails
- Improves PCP structures and implementations
- Increases outcome reporting

## Highlights

---

- Documentation tied to timekeeping equals accurate billing
- Documentation + timekeeping + billing = streamlined audits
- Outcome focused
- PCP = Foundation of the documentation
- Increased staff effectiveness
- Consistency in documentation
- Comprehensive reporting

## Software modules

---

- Clinical documentation
  - \* Residential
  - \* In-home support
  - \* Out-patient
- Reporting
- Billing
- Staff Supervisions
- Maintenance work order tracking

## Ancillary benefits

---

- Cloud based
- Up-to-date technology foundation
- Fast implementation
- Comprehensive training
- Ongoing support
- Successfully used by over 400 staff and multiple agencies

## Cost

---

- Monthly billing based on number of concurrent users results in it being cost effective

## If you need

---

- Increased compliance
- Reduced administrative time and effort
- Increased quality of care
- Increased audit trails
- Improved PCP structure
- Improved staff effectiveness
- Consistency in documentation
